TSPN HIGHER EDUCATION TASK FORCE

• **Mission/goal:**
This task force, an appointed task force created and approved by the TSPN Advisory Council on June 8, 2017, will hereto serve to unite colleges/universities throughout Tennessee towards the goal of suicide prevention. The task force will meet to create and carry out action items to best help the at-risk population of college students. Colleges and universities pose a unique problem for suicide prevention/intervention/postvention efforts. By employing the expertise of those listed to below, to be invited to this initial task force, it is the hope that this effort will expand to other colleges and universities throughout the state, creating suicide safer campuses throughout Tennessee.

(a) Each state institution of higher education shall develop and implement a suicide prevention plan for students, faculty, and staff. The plan must be developed in consultation with campus mental health professionals and suicide prevention experts. The plan must identify procedures related to suicide prevention, intervention, and postvention.
• (b) Each state institution of higher education may seek assistance in developing a suicide prevention plan from an organization that engages in a variety of initiatives to improve crisis services and advance suicide prevention, such as the Tennessee Suicide Prevention Network or a successor organization, and may seek information from such an organization for information on the development of training programs pursuant to 63-1'125(c)(1).

• 63-1'125(c)(1). (c) The department of mental health and substance abuse services shall: (1) Develop, in collaboration with the Tennessee Suicide Prevention Network, a model list of training programs
(c) Each state institution of higher education shall provide the suicide prevention plan to students, faculty, and staff at least one (1) time each semester.

SECTION 2. This act shall take effect July 1, 2019, the public welfare requiring it.
